**DESCRIPTION**
Fuel Force 2000 will dramatically improve the performance of standard diesel fuel. Addition of Fuel Force 2000 will improve 2nd Class diesel into 1st Class fuel by increasing Cetane performance. Fuel Force 2000 can be added at refinery level, distributor level, fuelling stations or even by final users at point of filling.

Fuel Force 2000 is suitable for:
- Standard Diesel Cars.
- Commercial Vehicles.
- Stationary machines.
- Marine.
- Railway’s.

**USES AND APPLICATIONS**
Dilution rates begin at 350 ppm to 2000 ppm (350 mls to 2 Litres per 1000 Litres of diesel).

Fuel Force 2000 will increase the Cetane rating of the fuel which will result in a smoother and quieter engine operation. As the Cetane rating increases the rates of pressure in the cylinder lower during combustion creating a cleaner, more efficient burn. These improvements continue across the full load range of an engine. Also Fuel Force 2000 will reduce exhaust odours under critical conditions.

**SAFETY**
Before handling, read the Material Safety Data Sheet and container label for safe use, physical and health hazard information.

**STORAGE AND SHELF LIFE**
When stored between 10 and 40°C in the original unopened container, FUELFORCE 2000 has a shelf life of 36 months from the date of manufacture.

**PACKAGING**
FUELFORCE 2000 is available in 5 Litre, 20 Litre & 200 Litre Containers.

**DISCLAIMER OF LIABILITY**
The information and all further technical advice is based on our present knowledge and experience. However, they imply no liability or other legal responsibility on our part, including with regards to existing third party intellectual property rights, especially patent rights. In particular, no warranty, whether express or implied of guarantee of product properties is intended or implied.
